

Online Training

CPR and first aid training just got easier for you and your staff! Join the thousands of businesses like yours that have discovered the benefits of online CPR or first aid training!

1, 2 or 3 year Certificates

Nationally Accredited

Think Safe offers nationally & internationally accredited online CPR or First Aid certification training. Online multimedia training is accepted by the United States Government, OSHA, and many other certifying authorities. Thousands of healthcare providers, teachers, coaches, and industrial workers have been certified with online training.

Think Safe's First Voice Online Training is accredited through the International Occupational Health & Safety Association (www.IOHSA.org), an international training organization that meets ECC/American Heart Association (AHA) guidelines including all fifty states' training requirements. Think Safe's First Voice Online Training follows the same accreditation guidelines as the updated American Heart Association or Red Cross guidelines.

Online Training Benefits include:

- ✓ State-of-the-art learning management system allows easy tracking of students
- ✓ Approved method of CPR or First Aid certification and AHA/ECC/OSHA/ILCOR compliant
- ✓ Video, Hands-on, text and Audio components improve skill retention and improve learning experience for student
- ✓ Availability of training anytime with Internet access; Courses bookmark for easy re-entry to the study guide
- ✓ Less time used with a course length of 30-60 minutes; Significant savings on the class cost & employee time
- ✓ Scheduling flexibility of training one person at a time versus coordinating a group
- ✓ Management reports including courses passed, in progress, unused key codes, and refresher access
- ✓ Unlimited online access by students to courses passed for future reviews change
- ✓ Management can require future trackable refresher courses for any passed course and students receive auto-notifications to take refresher course
- ✓ Free online course material, eliminates training budget impact for printed course materials
- ✓ Experienced technical support and customer service representatives that understand technology and your training needs
- ✓ Train-The-Trainer Course allows organizations to bring the training in-house and substantially reduce training budgets
- ✓ Reciprocity for certified instructors and trainers with other training organization providers (AHA/Red Cross, etc)
